Buckets of water to rinse clubs and wet towels 3-4 buckets

Morning meeting with crew assignments

We took 3 volunteers across range to get names for plaque

We had 2 people picking up bags extra leftover balls and broken tees etc

We did one person getting names for the three runners in the tent best to put names in alphabetical order

Organized balls into bags with brand signs on table for caddies to pickup

If you have a short game area have 2 people controlling clearing of the green put out several brands of balls in the area at the beginning of the day we washed theses balls at the end of the day

Picking balls needs to be constant as this takes time to pick wash and sort .. sorting table provided by golf Canada don't run out of balls

You will note that Titilest will be the most popular ball prov1 and 1x in

Lights you will need lights for early range cover as well as putting and short game. Also lighting is required in the ball sorting tent in the early morning and after dark.t

Stay organized let your volunteers work their stations

### **What could have gone better?**

Tip ... your scheduling I would call all of your volunteers prior to scheduling module because what they committed to early on 97 % of the time will change and change again be prepared to work your schedule up to the week of the tournament
