Committee Job Description

The shuttle committee will be responsible for providing rides for spectators, and volunteers. Golf Carts will be used to provide the rides to these groups. The committee will operate the golf carts throughout the tournament week.

Key Information

- The committee will be provided with the following:
 - 6 electric 6-passenger golf carts (Volunteers and Spectators)
 - 2 electric Accessibility golf carts (photo in appendix) (Spectators)
 - The above is an estimate and may be adjusted based on the availability of golf carts from Golf Canada's supplier.
- Volunteers will require rides to and from their positions on the course. Priority is given to volunteers working in areas furthest from the volunteer center.
 - Volunteers may also want a return ride once their shift is complete.
 - The majority of volunteers looking for a ride will be Marshals.

- Spectators who receive rides will mostly be those who have limited mobility or use mobility aids or those who have a disability. At certain golf courses or in certain circumstances shuttles will be offered to all spectators.
 - If someone requests a ride on an accessibility shuttle, volunteers should honor the request. Volunteers are not to judge whether they think someone has a disability or not.
- The committee will work with Golf Canada to determine the best routes for the shuttles to take.
- The 6-passenger and accessibility golf carts will need to be charged during the day and will not make it a full day without a charge. A process for rotating carts will need to be developed.
- It is highly recommended that volunteers come on-site and practice driving the larger golf carts prior to the first shift. These carts are quite long and feel different to drive than a regular golf cart.

Ideal Number of volunteers: 30
